To Our Potential Birth Mother,

My name is Hannah and my husband is Justin. We are a married couple living in Los Angeles and we want nothing more than to start a family:) We wanted to reach out to you because we heard you are creating an adoption plan for your baby. This is a courageous and emotional thing and we respect your decision so much. My father and aunt were both adopted and I really can't imagine life turning out any differently than it did. Let me tell you a little bit about ourselves.

We met in New York City in 2001 while we were both pursuing careers in the arts. I was a dancer and Justin was and still is a musician. We dated for several years as we continued to dance, play music, and teach. We got married in 2010 and during that time I became a Pilates Instructor and Justin started an insurance brokerage with his brother. Justin still works as a professional musician but is also able to supplement our income with insurance work.

We love to travel, cook, hike, spend days at the beach, play games, go to the movies, and see live music. We also love being so close to Disneyland and Universal Studios. We have family on the West Coast and on the East Coast so we travel back and forth enjoying different seasons and different cities.

We both come from very loving and supportive families. A new baby would get a lot of love from grandparents, cousins, aunts and uncles. We have nieces and nephews that we love playing games with, teaching music and dance to and taking to Disneyland! Everyone in our family is excited to welcome a new member to the family and shower him or her with love.

Our home is filled with laughter, love, music, good food, family, friends and their children. We are so excited about having a family. We know we can offer a loving, supportive and stable life for your child.

With Gratitude,

Hannah (& Justin)
