

Candice & Michael

hello

We are Candice and Michael. We want to begin by expressing how unbelievably grateful we are that you are taking the time to get to know us. We can not pretend to know what you are going through but we hope you find comfort through our story.

Our story leading us to adoption we now know is our fate. Although when Candice was diagnosed with early breast cancer, it didn't seem that way. We were blessed with our daughter Sophie but I am no longer able to have anymore biological children. Both of our fathers were adopted and this path for us feels natural and apart of our family heritage

We want you to know that we support and respect your choices. We understand that you know what is right for you and your child. We are sending peace and comfort on your journey.

It is our intention to express to you that our marriage is based on unconditional love, support, encouragement, respect, honest and trust.

BROTHER, SON

Michael adores his parents and brother. We have become one big family and everyone gets along like we have been one big family forever. Spending time together and creating new memories and traditions is what is most important to him.

Our Home

We live in a wonderful suburban neighborhood on a cul de sac where our daughter has many friends in the neighborhood to play with. She especially enjoys her swing set and Ninja Obstacle course

We love to find any occasion to host family and friends at the house. Candice is a phenomenal cook always trying new recipes or recreating her grandmothers italian dishes. Michael is the grill master and now pizza expert! Mhmm

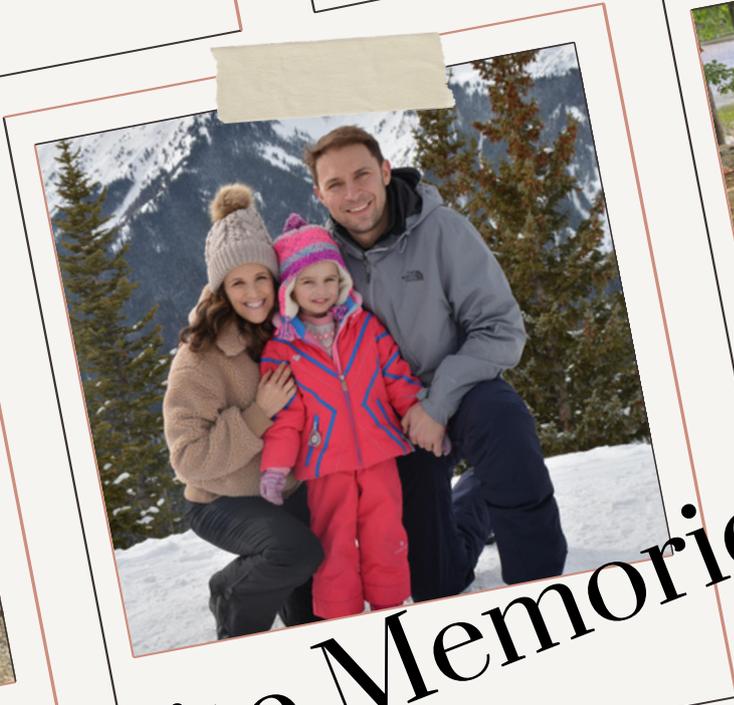

Although we are an active family, we enjoy most being at home together. cuddling up on the couch and watching movies, or playing board games.

Sophie

Our daughter, Sophie is 6 years old. She is the most loving, caring, funny, smart and beautiful girl. She is aware of inner beauty and spreads kindness to all around her. She loves dance, swim, soccer, reading, outdoor activities and also technology (from her dad). She is going to be the best big sister.

Favorite Memories

Michael's Family

My parents, Nancy and Gene, are the most sincere people I know. The love they have for their family is like no other love.

It is extremely important to them to keep their family together and close no matter the circumstance.

My mom was a nurse for 30 years. She is now retired and help us twice a week. She has so much love for our daughter Sophie and our daughter loves her "Nana" so much. My dad is in real estate. He always makes everyone laugh with his sense of humor. Sophie loves his jokes! Having another grandchild would make them so happy.

My brother, Kenny, is a marketing executive. He is the most fun, loving uncle who loves to play with Sophie. He is like a big kid and is always playing games with her.

Candice's Family

My parents, Ellie & Frank, have been happily married for 40 years. They are the most supportive and loving parents. I have always looked up to them and they have been my guiding light.

My Dad has his own flooring company where my mom used to work until we went off to college. Then she started working at a school. They both adore children and are the greatest grandparents. Family means everything to them and their family's happiness always comes first. They are thrilled to see our family grow.

I have a brother and sister who I consider my best friends. We talk everyday! They are the best Aunt and Uncle and love Sophie with all their heart. They look forward to watching our family expand.

We are a close family who support each others milestones and successes.

Our family bond is held close to our hearts.

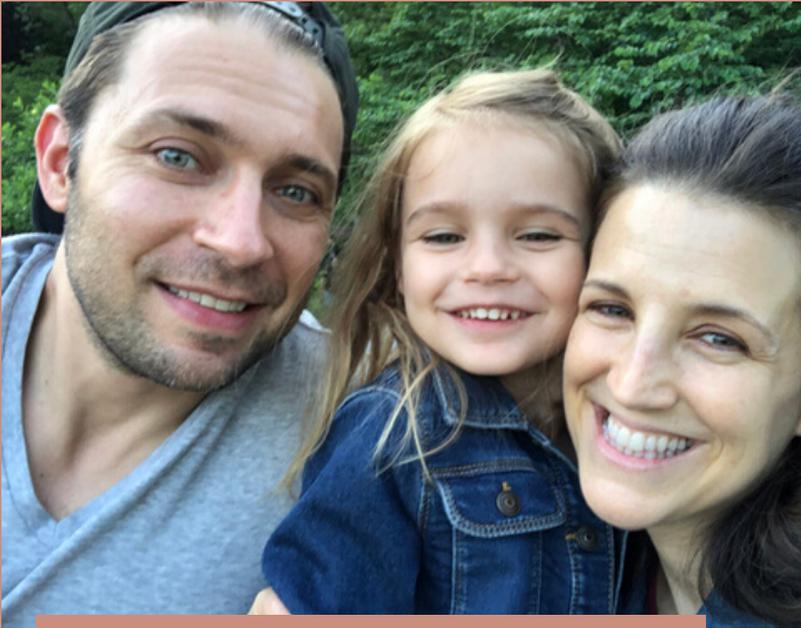

We enjoy making memories together, creating traditions and spending time with our close and extended family.

"You could be my luck even if the sky is falling down
I know that we will be safe and sound"

Thank you

We hope in viewing this book you have a good sense of who we are and what a wonderful relationship we have. We know with all of our hearts that if we are fortunate enough to adopt, that this baby will be loved, adored and cherished beyond compare.

We are excited about this new phase in our journey together and look forward to bringing another child into our love and our life. We are honored to be considered as adoptive parents and would love the opportunity to meet you.

Thank you for your consideration.
