

Dear Expectant Parent(s),

We are Jayson and Rosemarie and we would like to take this opportunity to thank you for allowing us the time to open our hearts and share our family with you. Your child's story will show how difficult a decision it was and how you put your child's needs above everything. We truly hope to be a part of that story and add a new chapter with our family (Dogs and Fish included).

How our story begins...

Our story begins at a dinner party; we met over a chicken parmesan dinner and have been inseparable ever since. We dated for several years and eventually married. Since being married God has brought us down the path of adoption and we look forward to sharing as much love as possible with our child.

Now that our children have grown up and begun their lives we can't wait for the opportunity to open our home and our family to another child. Our family is always welcoming of more fun, laughter, and most importantly unconditional love.

About Rosemarie (By Jayson)...

I don't know if I will have enough room but I can tell you that Rosemarie is the most caring wife and mother a person could ever want. Her love is unconditional, her selflessness knows no end, and you can see her qualities in every one of our children. Rosemarie has a great career as a Safety Manager which means we have child safety locks on the child safety locks. She likes to cook homemade meals, especially Italian food. She also likes to crochet and make scarves and sweaters. Rosemarie is very outgoing and always loves to try new things but most importantly no matter where we are or what we're doing you can't help but feel comfort and warmth when you're with her.

About Jayson (By Rosemarie)...

Jayson is a wonderful husband and father. He is intelligent, good hearted and opened to new adventures. He loves spending time with our family and always helps where he can. Jayson is very handy around the house and likes to build things. He works as a Director of IT, so he can make just about anything out of spare parts and because he loves computers so much our family never has to worry about computer problems. What I love the most about him is that regardless of what is going on his priorities sits with his family. He is my life-long partner and I'm so blessed to be his wife.

Family and Home Life...

We live in a lovely three bedroom home in a quiet neighborhood. We have a big park down the street where we love to walk our dogs. We have three tiny dogs Rocky, Missy, and Phoebe but don't worry they are scared of their own shadows but love to give kisses! We both love the outdoors and hiking so we spend as much time as we can at our vacation home in the mountains.

Every year we have a big family get together at our home where Rosemarie makes her delicious bake ziti. We love to have family time, whether it's watching a movie, baking a cake or cookies, or playing board games. Family time is the most important time for us and we believe God wants our family time to include another family member.

Thank you...

We thank you for taking the time to read about us. Our desire for openness will always mean you will be a part of your child's life story and we will honor whatever level of openness which brings comfort to everyone. Thank you for considering us and we know your decision will be the best one for your child.

Sincerely,

Jayson and Rosemarie
