FAMILY-OV

Thank you for taking the time to learn a bit about us.

We promise to provide a safe and supportive home for your child, filled with love and laughter. We'll read bedtime stories, give lots of hugs, help with homework, listen when things are tough, and help them to find the things that make them happy.

We will create an environment where they feel secure, loved, and encouraged to be the very best they can. We promise that they will know their story and know how loved they are.

Our Story

Hello! We are Scott and Katy — we have been together for over seven years, and we got married in New York in 2018. When we met, we realized pretty quickly that this was the start of something special for us both!

Scott grew up in New York and Katy grew up in London, England. We now live in a pretty town north of New York City.

We own a small coffee shop locally and enjoy working together and being part of the community. Outside of work, we like sharing meals with family and friends, going for hikes and bike rides, being outside in nature, going to art galleries, and seeing movies and live music.

We are excited to grow our family and share our warm and loving home as adoptive parents.

We like to...
hike, coach soccer,
volunteer, be outside!

KATY TALKS ABOUT

Scott

Scott is kind, funny, honest, curious, creative, and hard working. He is very family-oriented, cares deeply about people, and wants to leave the world a better place than he found it. He is very active and loves to keep fit. He loves to learn, and always wants to understand things so he can make them better. He doesn't shy away from the tough stuff and wants to figure out the puzzle of life, however hard it is. He has a way of making me laugh and making it all ok, even when it's not! He is an awesome Dad to his daughter, Riley, and his son, Javin.

SCOTT TALKS ABOUT

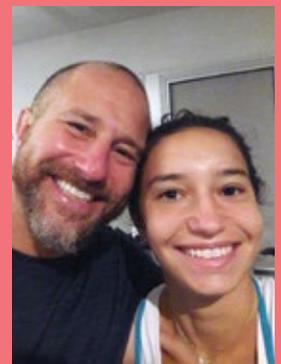

Katy

Katy is caring, calm, patient, organized, thoughtful, and a great listener. She is happy and positive about the world. She has a close circle of friends who always turn to her for empathy and good advice. She loves to travel, read, and learn, and her favorite things are practicing yoga and being outside in nature. She adores her nieces and nephews in London, England, and is a great stepmom to Riley and Javin. She has always wanted to be a mom and I know she'll be an amazing one.

Friends & Family

Our friends and family are spread across New York, Maryland, and London, England. We love spending time with them, and they are very supportive of us growing our family through adoption. In New York, we have a strong support system. Our friends and family are excited to do everything they can to help, as we realize our dream of being adoptive parents.

OUR HOME

We live in a pretty town north of New York City. There are parks, nature trails, playgrounds, local shops and community activities to explore all year round, on bike or by foot. There are great schools nearby and lots of young families. Our apartment is modern and spacious, and is part of a complex with a gym, an outdoor swimming pool, and a nature trail. Scott's son Javin, 16, lives with us part of the time and we love to hang out, play pool, exercise and eat together. We think of our home as a calm, loving, and supportive place where we can all be ourselves.

OUR WORK

We own a little coffee shop close to where we live. It was Scott's idea to open the coffee shop together, and we've built it as a team over the past two years. It's hard work but we love it. It's great fun getting to know our customers — we really enjoy being part of their lives and the local community. It also means we can be flexible about our working hours so that one of us can always be home to take care of a baby, or take our child to school when the time comes.

I know Katy and Scott will together be wonderful parents and role models. Successful, hardworking and family-oriented, they make a wonderful team. They will ensure that a child grows up in a supportive home, filled with joy and love.

– Charlotte

They are an amazing couple. I don't know anyone more loving, caring, or more capable of becoming great parents.

– Bela

I know Scott is an amazing father and Katy has embraced her role as a stepmother. There is not a doubt in my mind that Scott and Katy will be incredible parents.
