

Logan and Todd

Hopeful Adoptive Parents

Our Story...

We met while on vacation on beautiful Fire Island. After dating for a few years we knew we found our soulmates. Todd proposed on the beach at sunset, and we've been together for over 10 years. We are truly best friends and feel very lucky.

We lived in NYC and had a lot of fun being city guys, but purchased our home in the suburbs of Westchester County to start a family.

Our town has one of the best school districts in the county and has a great mix of cultures with a small town feel. We have a tree lighting for Christmas, lots of great shops, and best of all a great town pool.

After our nephews were born, we knew we were meant to be parents.

Todd's best friend is adopted and we talked a lot with our family and friends about our decision to begin a family. We talk about what type of parents we want to be and make decisions that will be best for our new family.

A bit More About us

Logan is from sunny Prescott, Arizona.

Todd was raised in the Big Apple - New York City.

We now live in the suburbs 30 minutes north of NYC and enjoy our relaxed and peaceful neighborhood.

Todd is an Assistant Principal and works within Special Education. He is also a Real Estate agent. Todd was raised with Italian and Cuban traditions.

Logan works in finance in Accounts Payable for a non for profit organization that works with homeless families. Logan's family has roots in Northern Europe.

We love to travel and have spent time across the US. We have family all over America and spend time visiting them.

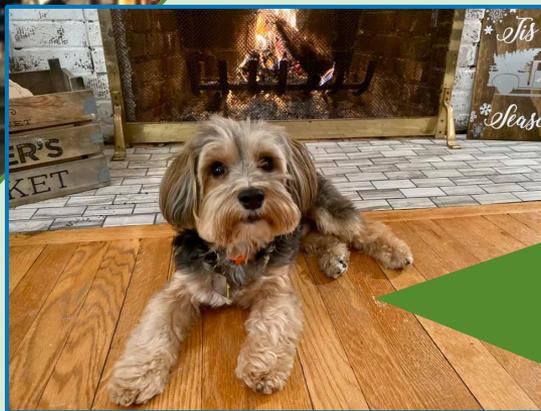

The beach is our favorite place to relax during the summer. During the cold months, we spend time by our fireplace playing board games.

Our Family Traditions

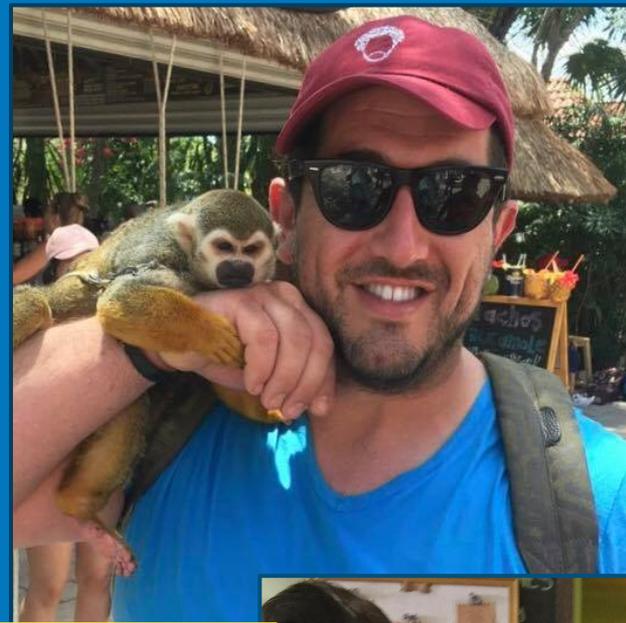

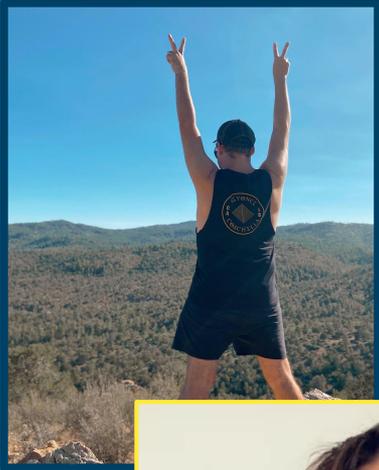

Todd's parents and sister also live close and they have a tight knit bond. We have weekly tradition of Sunday Italian dinners. Todd and his Mom cook every week together.

Grandma is nicknamed *CoCo* by our nephews. She is such a caring and loving grandmother and can't wait to have another grandchild to share her love. Todd and his mom have a very close bond.

Together we enjoy being successful, we both come from humble backgrounds so being secure and stable is important to our life together.

Logan's Dad lives nearby and helps us keep our yard healthy and growing. We have a brook that runs through our yard where we sit by the fire telling family stories. His dad is a genuine country man and shares so many stories of his youth on the ranch.

Our Home

Our home has 4 bedrooms and 3 bathrooms. It is warm, cozy, and relaxing. It is in an incredibly safe neighborhood with excellent schools, sports teams, and lots of nature.

Our home has a room ready for a baby. *The nursery is quiet and soft, full of toys, books, and new clothes. It promises to be a safe, secure, and stable environment.*

We're ready to share this safe space with a beautiful baby.

Family is where the heart grows...

Dear Expectant Mother:

Thank you for considering us as adoptive parents for your baby. We value you. You have our complete respect.

We'd love to hear from you to talk about your wishes and how we can make this process most comfortable. Together we will support you through this difficult decision.

Our promise to you is that we will raise your child with so much love. We will protect them, provide for them, and make sure they are always safe. We can't wait to teach them and guide them as they grow into a happy adult. We consider this opportunity our biggest life blessing.
