DEAR EXPECTANT PARENT

I am very grateful that you have chosen to review our profile. The decision to place your baby for adoption is a very difficult choice to make. I have a little girl, Isabella, through adoption. I want her to be able to have a sibling and I want to be a mom to another child, thus

the reason I want to again adopt. My adoption was a very positive experience. I want you to know that we will do everything we can to give your child a wonderful life full of love, happiness and endless opportunities.

AS YOU READ THROUGH OUR PROFILE, WE HOPE YOU WILL SEE HOW OUR LIFE WILL BE VERY SPECIAL FOR YOUR CHILD.

Our Family!

WE BELIEVE in living each day to the fullest and enjoying everything the world has to offer. While I work hard, we have much time to enjoy things together. Some of our favorite things to do are traveling and creating a list of places we want to see based on ideas from my daughter – it's fun to let the family choose. Right now, we have the Eiffel Tower on the top of our list. I also enjoy performing "do it yourself" work. It gives me a strong sense of accomplishment – in fact our friends and family call me "Handy Andy" and my daughter has taken up the actions of happily sharing the work with me and really enjoys it (and really helps). I also work hard to stay in good health, which includes working out often – in fact my daughter already has her own treadmill and together we walk as part of my way to instill good physical fitness qualities in her to be able to lead a healthy lifestyle.

I work in advertising in New York City. I have been in this career for 30 years after graduating from Syracuse University. I have worked hard to build a successful career. My job enables us to do a lot of things in life and will continue to enable me to provide our family with a life that is full of everything they will need to be happy and fulfilled. My company has a very strong family prioritization and this is very important to me so I can be available to my family whenever needed.

LOVED ONES

My Cherished Family

Family is the most valuable of relationships in my life and growing our family is so important to us. I cherish our family and spend a lot of time with all of them. I had a wonderful upbringing. My parents were always there for us - providing us with comfort, nurturing us in life experiences, and taking us on fun family vacations.

Some of my most fond memories are from spending summers in Cape May, New Jersey, on vacation and just enjoying the beach and the pool being together. We always had a lot of our family around us growing up. We would not only celebrate holidays together but had a home that was a central place for our family.

This is the lifestyle that I have already started with my daughter. We carry on family traditions and have started new ones. We would very much want to understand some of your traditions so we can carry on these as well. Our family gatherings are very fun, full of laughter, life and love. We cherish them often, particularly Christmas Eve. We have a very special tradition with my nephews - they come to our house the "eve" of Christmas Eve. That night we make a cake which celebrates Jesus' birthday. The tradition was carried down from my Aunt who would always celebrate Jesus on Christmas Eve.

MY FATHER lives in Florida. He had a very successful career in software development. He is now retired and fortunately, he spends a lot of time with us in New Jersey, especially around the holidays and during the summer.

My Mom sadly passed away nine years ago from cancer. Losing her was very difficult for my family. The bond I still have with my Mom is a reason that I wanted to become a Mom myself. The bond of a Mother and a child is very precious and now with my daughter I understand that bond even more deeply.

I am the middle child of two sisters. My older sister, Maria, is the matriarch of our family - she is full of life and is a wonderful person. She also lives in New Jersey and is married with two boys. My younger sister, Jennifer, is married and lives in New York. She is a wonderful person as well, caring and giving and enjoys a lot of fun things in life. My family is so very ready and excited to welcome a new child.

(FRIEND) TYLER | "If there's one thing that I can say about Andrea is that in the 30 years I have known her, there's not one time I can think of that she has not demonstrated compassion, empathy, understanding and a modicum of stern admonition which I believe are the main traits in her being a terrific Mom. She is wonderful with her daughter and anyone can easily see Andrea's traits beginning to be instilled in her daughter."

(FAMILY) COUSIN ROBERT | "Andrea is a terrific parent – she provides very strong financial support, more importantly, she provides love, happiness and instills strong values. She surrounds her daughter with the love of family and friends and will ensure a strong well rounded future for her entire family."

(FRIEND) CATHY | "Foremost, Andrea is her mother's daughter. Andrea grew up in a house where upon entering you immediately knew you found a second home. That household was filled with warmth, love, laughter, comfort... and FOOD. Andrea lives the example her mother set forth. In a word, is a nurturer. She finds the best in everything. Andrea is my greatest confidant, the sister I always wanted, the friend who was my greatest comfort during the darkest hours when my parents left this world within 4 months of each other. She is someone I am truly honored to call my best friend. Andrea is an exceptional mom to Isabella. She instills all the values she had as a child. She will be an even greater mom with a second child.....they will both be the luckiest children in the world"

MY AMAZING FRIENDS

WHAT MAKES ANDREA A GREAT MOM!

ISABELLA MAKING FRIENDS

I am a social person and I have a lot of very close and special friends. In fact, some of my friends I have known for over 45 years having met in kindergarten. And while we all live around the country, we are

in touch several times a year and celebrate big milestones together. They have all been such great support for me as a new mom and are in full support of me extending our family.

FRIENDSHIPS ARE OF HIGH IMPORTANCE TO ME, as they nourish who I am and make our life richer because of the people in it. Many of my friends are married and have children. Their children are an important part in my life. I have grown with them and shared life experiences and enjoy spending time together just like now, my friends are doing with my daughter.

(FRIEND) JOYCE | "People matter to Andrea. She was raised in a home with strong family values; that's what she knows and how she lives her life with her daughter. Andrea is intelligent and thoughtful. Anyone who has gotten to know Andrea wants to be friends forever. Andrea is a super person and her daughter and her future child are so fortunate to have Andrea as a Mom."

(FRIEND) KRISSY | "Her heart is bigger than most, her compassion is stronger and her love is endless. To my children, she is Aunt Andy! The first to have a tickle fight, toss around the football or romp through the waves at her beach house. I would entrust my precious children with her at any time and would never worry that Andrea did not have their best interest at heart. Now she is a Mom! She has given so much love and life opportunities already to her daughter and has so much more to give. Her true gift is her heart. I can only wish that more children have the chance to be parented by Andrea! For all that she has and all that she can do, another child is what will complete an amazing life already."

OUR DAILY READING TIME

WE LIVE in Northern New Jersey in a neighborhood of diversity and a lot of children around. I chose to live here as it is close to New York City and to my family. There are very good schools in my area – in fact some of the best in the state of NJ. I also have a beach house at the New Jersey shore. It is a place of great gatherings and memories with friends and family – my daughter simply loves the beach house, it is a very integral part of our family's life..

“Both of our homes are very special, they are filled with great memories and with my daughter we have already started to develop very special memories. Both homes are inviting and very comfortable and have a significant amount of room for our growing family.”

THOUGHTS ON PARENTING

Adopting my daughter was the single biggest highlight of my life.

I have wanted to start my family for a long time. My daughter and I have so much love in our hearts to love your child. I can promise you that your child will be loved unconditionally and we will give him/her

everything that can be possibly provided.

Being a Mom is simply my favorite part of my life and we would like nothing more than to expand our family and cherish your child with us.

When we play the game Humdinger, Andrea is hysterical. She can't hum very well so she always starts laughing and then can't hum at all.
